GLENCOE MOUNTAIN RESORT
CORONA VIRUS/COVID-19 PROTOCOLS

PLEASE DO NOT TRAVEL TO THE RESORT IF YOU, OR SOMEONE IN YOUR PARTY, IS FEELING UNWELL.

We look forward to welcoming you for a trip on the chairlifts and use of the mountain surface tow equipment.

To ensure your safety, we have made the following operational changes:

- All tickets must be prebooked, before arriving at the resort.
- If you arrive in a family group, you will be allowed to ride together on chairlifts and T-bars.
- If you arrive on your own, please ride solo, or if sharing with other customers, wear a face covering and either face forward or away.
- If required, the chairlift will run slower to allow passengers to get on or off safely. To ensure we are following social distancing rules, our operators will not provide physical assistance other than in an emergency.
- If customers' ski or snowboard equipment needs to be placed into the ski carriers by the chairlift operators, the operators will be wearing gloves and face coverings.
- Please only touch the chairlift safety bars, or surface lift handles, when you are wearing gloves.
- Avoid touching your face, and wear a face covering when in enclosed spaces (café, toilets) or in a lift line where you cannot socially distance.
- Sanitiser will be available at the entrance to all indoor spaces (toilets, café, ski hire etc).
